

**IMPORTANT INFORMATION ABOUT YOUR DRINKING WATER
FAILURE TO COMPLETE CORRECTIVE ACTIONS
BERKELEY SPRINGS CITY OF, WV3303301**

Our water system violated State drinking water requirement. Even though these were not emergencies, you, as our customers, have a right to know what happened and what we did to correct the situation (See table below).

An on-site evaluation of our system is conducted on a regular basis. Results of the evaluation show significant deficiencies in our water system which must be addressed to the Office of Environmental Health Services- District Office. We did not correct these deficiencies by the required date and are therefore in violation.

What should I do?

There is nothing you need to do at this time.

Required Corrective Action	Corrective Action Required by:
Failure to correct 2 significant deficiencies	June 29, 2022

What happened? What is being done? (Describe corrective action)

Deficiency #1 - Treatment plant (TP 001) operator coverage; The WVBPH Legislative Rules (Title 64, Series 4) requires Class II or higher PWS to have a Class II operator present at all times water is being treated unless a waiver from the Director has been granted.

Corrective Action: A waiver has been submitted to the state. We are awaiting the granting of said waiver.

Deficiency#2 - Distribution System(DS001) No Cross - Connection Program:

Corrective Action: Cross connection program is in the process of being implemented.
